

Subarachnoid Hemorrhage

Traumatic

Atraumatic

ANEURYSMAL

NON-ANEURYSMAL

Mycotic

- Infective endocarditis

Fusiform

- Atherosclerosis

Saccular

- Autosomal dominant polycystic kidney disease

Perimesencephalic

- Rupture of posterior circulation perforating artery
- Basilar wall artery heamtoma
- High cervical arteriovenous malformation

Convexal

Age <55
Reversible Cerebral Vasoconstriction Syndrome

Age ≥ 55
Cerebral Amyloid Angiopathy

Other

- Dual atriovenous fistula
- Arteriovenous malformation
